

# ESTONIAN DEEPTECH STARTUP NETWORK

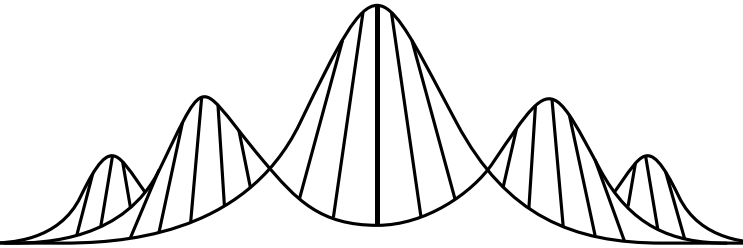

Communication Framework

Brand Guidelines 2026

# Design concept

Every great company starts with an idea. Every great idea starts with science. The deep tech startup network is a bridge between these two worlds – a place where the lab meets the market, where the scientist meets the entrepreneur, and where discovery gets the chance to become a solution the world needs.

# Design concept

Always use the network name, along with member logos, in the prescribed format inside a black box. If the bar cannot be used, use only the name and the graphic (3).

# Design Concept

Headings use the Inter Bold typeface available in Google Fonts, which best matches the font used in the network members' visual identity guidelines. Subheadings use the Inter Regular typeface.

# DeepTech Accelerator

Application deadline 11.May

Iga suur ettevõtte algab ideest. Iga suur idee algab teadusest. Süvatehnoloogia iduettevõtluse võrgustik on sild nende kahe maailma vahel – koht, kus labor kohtub turuga, kus teadlane kohtub ettevõtjaga ja kus avastus saab võimaluse muutuda lahenduseks, mida maailm vajab.
